

Radiant Realm Anthropocosmic Philosophy
All under the auspices of Radiant Realm

Radiant Realm (RR. 5.1) The Verb

Black Cross appears (mankind). The starting point, then white current of Light sweeping and encircling.

Cross = Suffering or Burden of Mankind.

The active Power of the Word –
3 Kingdoms:-

1. Mineral
2. Plant
3. Animal

Must have preceding one for the other to exist. None must suffer the other. Rules from one kingdom to next. Joy of suffering – the creativity to surpass yourself.

Radiant Realm (RR. 5.2) Genesis

Fire in Time. The Cross goes to brilliant Light – Creative Power. See free from temporal bondage. What is always is and always was, tells you that the Universe is eternal and is a unity, and that there is only Consciousness.

Pouring of Fire – vital Energy, moving energy. Hermetic Science splitting the atom of Consciousness.

Radiant Realm (RR. 5.3) Genesis Within Regeneration

Saw at the beginning a key inside a triangle, a locked Kingdom held in stasis. The energy activated the combinatorial lock of opening the door to the Kingdom.

Kingdom = Pharaonic Kingdom, the Kingdom of God on Earth.

Anthropocosmic Mentally – seeing it from all perspectives, simultaneous vision.

Reanimation of lock that has been in stasis for lifetimes due to being hidden, misused, forgotten – layers of Rustiness – Reanimation of Corpifications of the Doorway – Doorway to the Heart – Rustiness in the Dalek Invasion of the mindedness of man – Doorway prevented from opening by the layers of lifetimes that have failed to know the present spark of intuitive current. Archeological Site, layers of body plaques. Rushing towards me as I watched the opening of the doorway – faces of Hell rushing towards me (like Indiana Jones ‘Raiders of the Lost Ark’).

Radiant Realm (RR. 5.4) Functional Spirit

Ancient Alchemists of Pharaohs (Moses was raised in this tradition).

Vision: descent down - Dark Dark inner sanctum – (10,000 BC) belonged to elite - Elite Palace group taught to a few - (functional Spirit was old alchemists at work).

This Energy took me to them, several fires burning, smells, all done in the Dark.

Dark, Dark, far away from sunlight, all great things grow in the dark (embryos). Fires = Athenors. Fires have to be kept going for years, for ever (that these books arrive = fires are still burning).

Starts the fire within us, makes us the athenor – clay pot burning

Radiant Realm (RR. 5.5) Osirian Seed

Seminal – crude but capable of growth - seed from which something can be given (Osirian Seed gives rise to

Christianity)

Revealed a formula – in Readiness, actualizing process what is Revealed, embryo of Cosmic man, animal to human or Cosmic or Divine. Seed of Birth of Cosmic Man – evolution is not a limit – a point of Cosmic man is to be Returned to Spirit from whence it came. Preparation to be put together

- it must arise
- original impulse
- to be Returned to Spirit

Returns from whence it came – Horus taught to the Elite of the Palace, Osiris taught to the masses.

Radiant Realm (RR. 5.6) Horian Philosophy

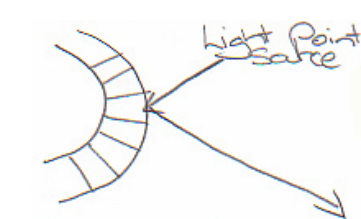

Sunlight breaking through clouds of Darkness. Universe is a projection of human Consciousness. Light breaking through.

Radiant Realm (RR. 5.7) Cosmic Genesis

(anthropocosmos temple of Luxor – Universe of Man)
(Drawer appears) on Drawer = Blueprint, the Seed of Existence.

In-formation: When asked to witness more specifically, Light shot from a Light Point (could be stars or angels or something igniting will that shoot Light to Tablets, and ignites or makes the Birth of that imprint)

Hits and Refracts thus incarnates, creates corporeal.

You can ask anything of this, holds all specifications.

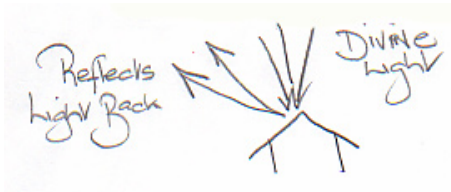

Radiant Realm (RR. 5.8) The Law of Genesis

Gives rise to the Architecture, that which makes manifest – can unmanifest.
Penetrating.

Lines of Light, mathematical angles and numbers, all alive as a Design Presently being created

Present Creation: Temple of Luxor - grounding of the Light
Could see the Light Landing and Reflecting

Grounded through angles, mathematical symbols

Presently will be, presently was, always will be
(What is is, what was and what will always be, was and is Eternal, so beginning or end)

Radiant Realm (RR. 5.9) Symbolique

Saw the Holy Spirit or Current of Energy.

Appears like a Bird, coming from above and imbuing the Static form, impregnating it with the Spirit Seed of Light. Penetrating force of Spirit Current. Imbuement - (force when hits resistance, restriction gives rise to revolt. Resistance gives rise to movement, generates.)

Symbol is the force is the impulse, generates the imbuement, is the genesis, is the present birthing, is Eternal. Present is Eternity.

Radiant Realm (RR. 5.11) Spirit of the Problems of Knowledge (In-formation)

Vision appears of Dark lines refracted and beings existing who are habituated and clinging to the Dark (like mechanisms), clinging to desperation, fear etc. Shadow existed as a complement of the Light – wouldn't see the Light without the Shadow. The point of Spirit would be to see and allow Light to flood and completely overwhelm Shadow.

Radiant Realm (RR. 5.12) Simultaneity of Vision

Presently incarnating present moment, seeing, penetrating - seeing creating seeing its is-ness.

Radiant Realm (RR. 5.13) The Verb in Action

Will of motion, the inside intelligence of motion – apparent in the action or gesture – imminence of motion – imminence (the inside impulse of imbuement of action).

Seeing from the inside out - esoteric – true vision. Force in action, movement is one-pointed, nothing is taken into account, forceful.

Vision: horse charging towards me (God needs no excuses, no apology). At last Love takes nothing into account (the Law of Creation).

Radiant Realm (RR. 5.14) Initiatory Christic Passion

(holds the initiation process)

Holds the seed to the alchymeic fire and explosion of the frontal personality – atomic explosion.

Radiant Realm (RR. 5.15) The Sacred

Vision: Cones of Light appear inside a porthole (place set aside – as well, necessary not sufficient). Engages you when entered, entrance to the present moment where everything is seen and understood as the literal is-ness – the present moment seen as it is Returned to the One, no separation but Only.

Radiant Realm (RR. 5.16) Symbols of the Function

Symbol is alive, carving is alive , the living thing.

Radiant Realm (RR. 5.17) Evocation

Hearing a sound – 1st octave, 1st tone, drawing through sand , drawing to enter.

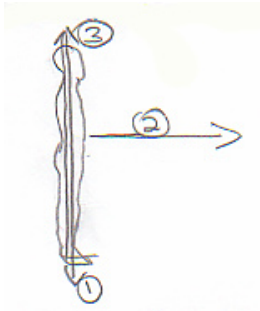

Radiant Realm (RR. 5.18) Function Power: The Neter

The inside becomes the outside. Networks awaken deep within the brain and to the surface, activation of an evolutionary current. Expanding Consciousness. Three-dimensional, opening the passageways. Brain felt to be opening from fixity

... Not alive as the Limitation of form, not Rendered in what appears but it is the Living One who appears as all of this, but remaining Eternally the Same...

Radiant Realm (RR. 5.19) Will of the Human Being

Will seen and felt as a force from the inside, the actual impulse.

Three lines of Current appeared:

1. down – procreation
2. forward and up – push through evolution to evolve
3. up the exploding of Brain mind to Unity (not seen as developed)

Radiant Realm (RR. 5.21) Genetic Function in Itself

Creative Current so great, the impulse to generate overwhelms anything else. Highway of current and forcing this map or bits of programmes or DNA message to spread – doesn't appear to mind any errors (indiscriminate) - just the Force of Creation. Original genesis, force ultimately to return to itself... "I'm always only contemplating my own form"...

Radiant Realm (RR. 5.22) Symbolic Philosophy

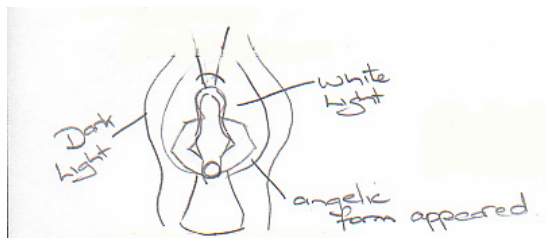

Symbolic – holding the expression as an imminence.

It is not just standing for something

It is the something

It is presently alive

Radiant Realm (RR. 5.23) Theo-Genesis

Creation is continuous and simultaneous. Creative Ball thrown to me, Genesis is the creative force which is continuous.

Radiant Realm (RR. 5.24) Hieratic Symbol

The principle point of Activation of the points or symbols. Atom is the active living principle. Man is the Universe (animate at atomic level). The living atom is the matter of the form. The Atom is the living principle. Strikes the Atom, animates the living form.

Radiant Realm (RR. 5.25) The Law, The Hierarchy of Stages

Vision appears of the soul prior to birth in the etheric, happy and ready to be passed through the process of Rebirth. Giant machine of Energy appears where the Soul is Pressed – impressed print of person into substance. This process appears to then mix with the teardrop of the Divine to come through to Corpification. Incarnating process – making the verdant into corporeal. Animating principle, genesis of microcosm. Divine Current is the machine. Dissolving the imprint – making the Repetitive Cycle Redundant, Karma Released, Dissolving the Karma Law making it unnecessary - Confession of Happiness.

Radiant Realm (5.26) The Origin of Becoming

Sequence of fixations, perfectly articulated. Vision: Holy Spirit as bird shape enters from above from the transcendental into the world liquid. Same as the process of fertilization, procreation.

Bird in beak holds imprint of specification of species and enters water (world) egg. Instantly on entering the message carries informs and creates a network of instant activation and recognition of imprint, everything moves quickly. Appears to Reignite, Respecify. New species -enlightenment. Species on its way to Cosmic Man.

Radiant Realm (RR. 5.27) Quality is Function

Seeing the Process as a living Current not as a something, always already the case

- no historicity
- no fixity
- nothing to measure over against
- no quantity (science is based on quantity)

Always already happening – it can't be measured – no magnitude, science goes the wrong way

Effect of Energy – everything is allowed to become alive – becoming living, no fixity.

Radiant Realm (RR. 5.28) Qualitative Transformation

Instantly seen as the activation of Current as a living process through the chemical form. Chemistry of Stress to Chemistry of Enlightenment. Appears that the body veins etc are swelling to the Real form, not the form under gravity and death. Opening the way to the Chemistry of Enlightenment.

Radiant Realm (RR. 5.29) Pan-Seminal Causal State

(literal = across all things that can grow their causal state)

Vision appears of Diamond - Divine Diamond. Hand of God appears in Transcendental Realm. Diamond Resting in the Palm of the Hand, held up as though intensifying the Current and directing it. Almost appears at that point on the hand as fractilising the current. Becomes a defined Ray of Creative Current.

Effect: Point of Fractalised Current spreads a Spectrum of Colour and Vibration. Spectrum of Colour and Energy Vibration activating and purifying layers of Colour, very different effects of colour on different areas - head, nerves, glands etc.

Radiant Realm (RR. 5.31) Cosmic Consciousness

Realigning to the Real Capacity of Brain Mind. Infinitely above the Brain Mind has a wonderful height and capacity of Real Alignment, not contracted.

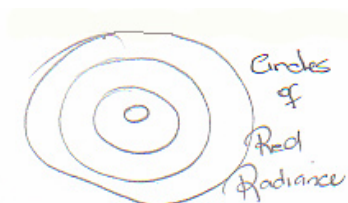

Radiant Realm (RR. 5.32) Qualitative Evolution

Following of Expansion of Consciousness, following Brain Mind. Extending the Brain, lifting out of the cramp. Liberation of the Cramp of Doubt. Growing a Cosmic Brain – evolutionary.

Radiant Realm (RR. 5.33) The Volatile Principle

Explosion behind the face, behind the third eye, exploding the fixity of a Black Head. Black Head locked inside - doubt. Mortality face. Root of the nose – explosion, the seat of Consciousness. The failure to grow in the Cosmic Brain leads to growth of Black Mortal form (everything's died), brain or head inside.

Radiant Realm (RR. 5.34) Archangels Suns of Primordial Nature

Circles of Red Radiance felt as a Doorway - enter into a furnace of Red fire, in the fire the mortal Coil is released, attention shoots upward. Release the lower form, releases attention from primordial matter. Matter -death and decay. Serves of fixations are burnt away. Effect + cause

Radiant Realm (RR. 5.35) The Odour of the Neter

“A Point of Light spreads a defining touch.”

Effect of using this energy as a cause: seen as light opening in the brain, attention moves up to a tunnel of light – the Infinite Radiance beyond the point of leaving attention into the Infinite field. Daemons appear at the crown, gateway to the infinite - history of hellish fear fixated across mankind, effect moves to dissolve this wall at the gateway. This gateway has prevented a lot of souls from leaving - this must purify the way for many to leave.

Radiant Realm (RR. 5.36) Vital Synthesis – Pure Symbol

Shape Shifting. Shape of Angels appears presently being created as a shape, no fixity, living thing, creative shape (magic of manifesting) electrifying current of Shape.

Radiant Realm (RR. 5.37) Action Synthesis – Pseudosymbol

Body appears in lotus position, then the lighted pattern or circulatory network appears– revealed to be more important than the outer cover – outer cover insignificant. Divine Pattern, points of Light or Divine architectural plan for Universe and forms > effect of using this as a cause > i.e. using as an energy.

Radiant Realm (RR. 5.41) Forces of the Present Moment

Coming alive as feeling, everything is felt presently. Force is action, action meeting its imminent Resistance, action inspires Reaction and Reaction brings action to an end.

Radiant Realm (RR. 5.42) The Vital Moment

Ball of Light thrown into a grey field of Resistance – ultimately impact dissolves into nothing. Reduces action to zero. The effect of that is zero. All action negates itself. But original cause is what it returns to – returns to the Original Cause. Imminent within action is resistance, which ensures action will bring itself to an end. Over time the effect of action shifts the outcome.

Radiant Realm (RR. 5.43) Formless Substance Receives Form

Out of Radiance comes the verb in Action, produces form. Saw a double fractaliser, making things more solid, substantial, grounding.

Radiant Realm (RR. 5.44) $(\sqrt{5} + 1) / 2$

Vision:

It appears like a cauldron without heat – Infinite Radiant Current – Unity or Source – despair. Schism

occurs. (Da – human embryonic form – getting to cry is shaped like a seahorse).

Creation of form is the action of ϕ = Creation of 1st Volume.

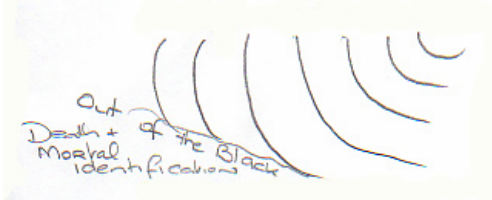

This energy is a continuation of Genesis – everything is always only becoming – appearance of form. Effect: Creative Control.

Vision: Source of Light. Radiant Light throwing Rings of Light that through mathematical shapes were formed into different angles. Form creator – created forms

ϕ – mystical number

$(\sqrt{5} + 1)/2$ is some aspect of what ϕ is plus unity (one part of process of manifesting current)

Radiant Realm (RR. 5.45) The Principle of Redemption

Point of entrance spherical Radiant Circles of Light – a dimensional doorway opens. Out of the Black. Black=death, and mortal identification. Into the Light.

If there is a readiness in Redemption there is a shift as a way out, a way into the dimensional Light shift is opened and intuited. Forward and sideways, upward.

Radiant Realm (RR. 5.46) Innate Consciousness Within The Forms

Innate flame in all things all Beings – Genesis

Radiant Realm (RR. 5.47) Fiat Lux (Origin of Nature)

Radiant Realm (RR. 5.64) Cosmic Genesis

Projection of Human Consciousness is a contraction – expands from Mind of Man. Basis of scission, original part of Cosmic Genesis innate within Cosmic Genesis / a separation of Heaven from Earth – gives rise to Cosmic imprinted in original genesis.

Because of Greeks – we have a linear description – planar intelligences, syllogistic (major statement/minor statement/conclusion) instead of Symbolique – not alive, dead corpse of science due to Greeks. Wrong turn.

Musical interval based on 7th – structure of Universe – the way Nature is put together, fractions of Absolute Activity or Unity.

Being, angel appears. Spinning beginning in Centrifugal force – in the spin all fragments, vital movement, separate realities, dissolve into unity – duration exists for a time.

Absolute activity is absolute movement, which is absolute duration, which is Eternity.

Radiant Realm (RR. 5.77) The Idea as Vital or Esoteric

(None objectifiable – such an idea is revelation not deterministic)

Impulse of Light (Genesis involves impulse – goal – product) to Matter of Revelation - Seen deep in Brain, impulse of Light like a flash, an aha! Everything in Revelation not a matter of raking through the head.

Stages of gestation – potential, not fully Realised in present state of humanity, across all things that can grow – mineral, plant, animal, human.

Radiant Realm (RR. 5.78) The Hieroglyph

Shock Evocation of the present manifesting current.

Potentiality is imminent in the original Genesis – that potentiality still to be Realised. Human -> Cosmic Man.

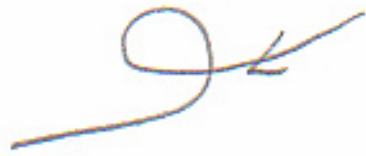

Radiant Realm (RR. 5.79) Abstract Principles (Neters)

All objects or things or beings have points of Reference that are all Related. 6 Directions that describe Relation: front, back, up, down, left, right.

The complementary quality form of Relationship to everything else. Male-female, left-right etc. All numbers occur within passage through 1 to 2. In the fractions of the Absolute Actuality. Neters as numbers, passage from 1 to 2, unity to duality.

Radiant Realm (RR. 5.81) Action in Function

Vision: action is the function, is the Current – nature of the action is the function, activates the Current.

Radiant Realm (RR. 5.82) Reaction Neutralises Action

(Reaction in fear brings everything to immovability)

Neutralises everything. Effect of using: Use it for conditions locked into fear, moods etc, e.g. oedipal reflex.

Dissolves the Reaction – important for dissolution of Reaction.

Radiant Realm (RR. 5.83) Action is Energy

Intensification of Current. Vision: Current

Radiant Realm (RR. 5.84) Energetic Complementation

One bounces off the other, one energises the other. Polarisation – one enhances the other (neutrons protons/ protons electrons). Warm active positive male / cold passive negative female

Effect: is the effect of the polarization of 2 (north south magnetic poles): Strengthen, balance, intense current.

Radiant Realm (RR. 5.85) Complementation of Appearances

(expanding volumetric)

One on its own certain force – intensifies current, more space

Geometric magnification (keeps building) more space as energy, more Heart of Space.

Radiant Realm (RR. 5.86) Annulling Definitions

Stacking – sequencing is an annulling definition. Manifesting stacking brings it to an end, makes it solid, manifests it.

Radiant Realm (RR. 5.87) Resistance Immanent in Action

Because of the nature of existence there is resistance in every action – friction, heat. Effect: Dissolves resistance, burns things up (lowers resistance).

Radiant Realm (RR. 5.88) The Hekat

Considered as a unit of capacity for the measure of grains (thus of a lunar character – not solar, female or male)

Radiant Realm (RR. 5.89) The Wedgat Eye

Radiant Realm (RR. 5.92) Substance in its Triple Nature

Vision: multidimensional nature of everything. Saw three bodies of same object.

Radiant Realm (RR. 5.93) Active - Male - Positive

Vision: Christ on Cross, big black, above the world, saw it falling – felt as force falling on top (father force). Demand for Discipline. The Sun. Men must truly be disciplined with love.

Radiant Realm (RR. 5.94) Passive – Female – Negative

Vision: waiting, receptive, no action, receiving, imploding, negative, fear imploding. Reflected Light of the Sun (moon). Effect of using: must be transcendently yielded for transformation. Female needs impacts to emanate. Be awakened by the falling cross.

Radiant Realm (RR. 5.95) Reactive – Formed – Neutral

Two forces on impact neutralize. $1 + 1 = 3$. Male + female = baby.

Radiant Realm (RR. 5.96) Appearance as Passing Signature

Radiant Realm (RR. 5.99) Amun and the Universal Ramification

Vision was: mummy appears, painted and ornate and jeweled -> doorway.

Front side painted animals, description of bardos, reflection of itself.

It seems that the point is to create a passage through afterlife to Eternal Life.

Radiant Realm (RR. 5.111) This Hermetic Hyle-Nun

Two flames appeared emanating eternal smell, odour (higher vibration – realm).

Flame-> one white, one orangey-red

Burn for the Eternal Light, vigilance.

Twin flames: Cold /Hot, Male /Female, White /Red.

There is an Eternal Space that can be participated in (the present moment) - Resurrection of Amrita Nadi, the form fit for the Eternal Domain. Effect: allowing that space to be known, abiding as identification with Eternal Form. (The tangible and visible are trivial).

Radiant Realm (RR. 5.112) Central Coagulating Activity

Spirit current formed into substance – the coagulating factor ϕ . Original schism – the one becomes two – everything defines and is part of unity.

ϕ – golden number – is a mystical number, doesn't have a mathematical equivalent. ϕ is an esoteric abstraction, arithmetical matters are a result of action of ϕ . ϕ is generated, creates the original schism, one is on its way to two, no objectifiable nature – can't be reduced to any quantification.

Egyptian pharaonics-

Esoteric

Symbolique

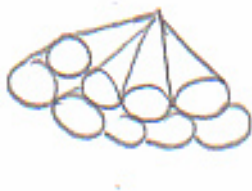

Reality

Feeling

Everything to Egypt was geometric. Greeks sold us out through sillagystic logic (expedient) – exoteric, objective rational degeneration of Reason.

Despair occurs when Spirit substance is made into form (analogue: getting to cry is shaped like a sea horse). Effect: brings everything into concentration (from dispersion).

Radiant Realm (RR. 5.113) Numeras Numerans

Vision: Numerous cone (conical) shapes appeared like trumpets, stemming from a source, they felt as volume, shape and sound and quantity. Proportions that create octaves done on vibrating string – number of divisions get a different tone – all numbers therefore relate to sound or vibrations. Expressions of octaves, tone equalities or vibrations.

Effect: form appears as sacred matter – pattern of whole cosmos, movement of whole nature.

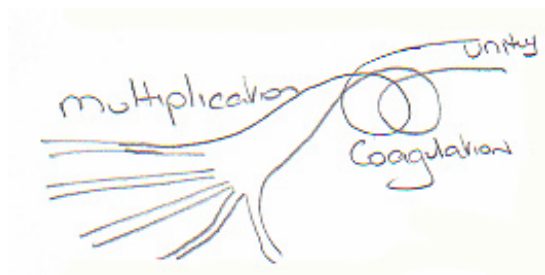

Vibration of these cones – from cones producing – each repeating tone is clarifying, purifying, detoxifying current maintaining from releasing the debris. Sound relates to numbers – music of the spheres, music of the planets.

Radiant Realm (RR. 5.114) The Multiplying Power

(go forth and multiply) Unique force when two becomes the three.

Father (1)– Holy Spirit (2) – Son (3)

Schism creates fractions of the unity. Making spirit substance is two.

Vision: the Current into Coagulation then movement out and forward in, numerous forward shafts of light. God Light is undiminished, is Real reflection of Only God, sets down to other realms into fractions of Unity – current unity.

Effect: Emanation and Creation

Radiant Realm (RR. 5.115) The Styptic Force

Contraction – deals with contractions

Radiant Realm (RR. 5.116) The Vital Natural Cause Reaches the End of its Activity by Excess of Its Effect

Brings itself to an end (e.g. production of wine fermentation produces alcohol. Stops at a certain point when alcohol is at certain levels, still more sugar left – creates wine, brings an end to activity.)

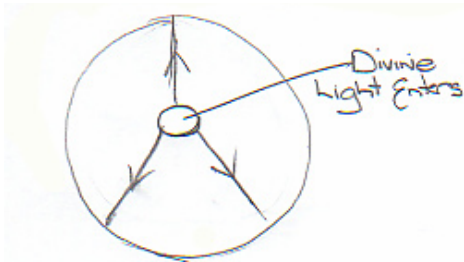

Effect of action becomes its own Resistance.

Radiant Realm (RR. 5.117) The Neter Two

Complements. Every number has a complement. Every light – dark. Effect: the two are brought into harmony, not opposing, not warring. Harmony between complementary aspects. Releases the objectification that has arisen through separation and rational mind. This energy allows complements to exist without warring. E.g. men and women.

Radiant Realm (RR. 5.118) The First Limitation – The Ternary Axle system.

The first limitation is a sphere – governs the whole of Celestial Mechanics.

As the Divine Light enters at a point, three spokes on the form, a sphere of Radiance defines the entrance of the Divine Radiance. Mathematically held as a conjuncture of current.

A way of support Current as a Radiance rather than a concentration. Concentration: Dark – Light: If it didn't spread and effuse Light it would be concentrated and effect would be more dramatic Light and Dark.

Effect: Support the structure to effuse Radiance; without this current would be destructive, with it spread – more useful.

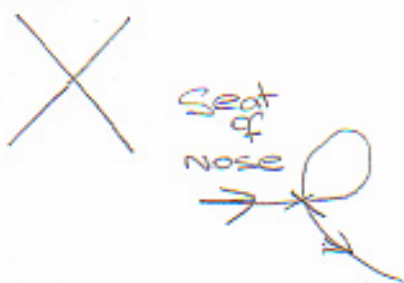

Radiant Realm (RR. 5.119) Consciousness of Multiplication

Radiant current created a force field that brought concentration of seedpod to activate process of growth – germination. Seed potential: Seed seminal - that which can grow. Held within all seeds is the imprint of replication and growth (procreation the one going to two and all the fractions on their way going to two: $1 + 1 = 3$)

Effect of using: Cell replication, re-stimulation of cell product; enlivening, everything gets fixed in this place, gravity.

Radiant Realm (RR. 5.121) The Neter Thoth

Vision: Energy current experienced at the seat of the nose, behind and backward. Forces a Current of attention backwards and in.

Two fractalisers covered brain mind apexes at the Seat of Consciousness. The chamber opens in Blue Light forcing attention in a chamber (temple), current felt to loop.

Amrita Nadi partial

Effect: evolving Cosmic Mind, potential of human being. Anthropocosmos -> Cosmic Man is the ultimate potential of Man -> human -> cosmic

Radiant Realm (RR. 5.122) Philosophy of Number

Everything is done through sound or vibration. Different numbers create different sounds, harmonious pitch

creates a different thing, number machine appeared in vision – Creation itself – not of this world.
Effect of using this: Allows the Being to come alive as the Current, not as fixity – mantras OM etc Felt body opening and living.

Radiant Realm (RR. 5.123) The Functional Character of Number

Like a Rainbow of Sounds everything awakens as a vibration of current.

Effect: opens up the feeling Being, the feeling Being in all its capacities, mind opens, body opens.

Radiant Realm (RR. 5.124) Scission and Opposition

Reaction to scission forces Creation, coagulates Spirit Matter into form.

Effect on using: Renewal of form.

Radiant Realm (RR. 5.125) The Vital Cause

A pulse of Light Beat comes from above. Igneous ongoing pulse – continuous creation, the pulse of creation.

Effect: felt as Brain impulse, heartbeat of the brain.

Radiant Realm (RR. 5.126) The Passage from 1 to 2 (The Creative Act)

Seen and felt as a force of Current coming from behind. Creative force of all. Source of all the fractions of One, all things, all manifestations, one fractions of One.

Effect: forcing creation/ forcing forward movement – overwhelms any inertia. Pushing through the blocks.

Radiant Realm (RR. 5.127) The Revelation of Heliopolis

Vision of a place was given where a shaft of Light was given and Beings one by one would come and kneel before it and Receive initiational Current – a dissolution of the duality of mind, mind as separation would dissolve, opening the Mind Current, third eye.

Radiant Realm (RR. 5.128) The Revelation of Memphis

Opens the Heart Centre. Tunnel of Light Forward and to the Right. Right Side Heart Current, awakening the feeling dimension.

Radiant Realm (RR. 5.129) The Revelation of Hermopolis

Lower Coil opening, navel, legs. Tunnel of Light below.

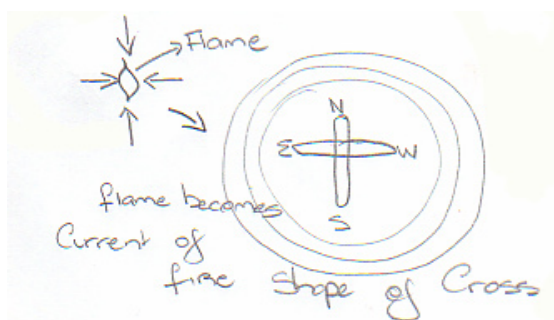

Radiant Realm (RR. 5.131) The Theban Revelation

Initiating or turning on switches (clicking noise) as flesh is turned on to flicking nadis or new circulatory, enjoy a higher vibration, energizing subtle nervous feeling dimension. Electrifying – ganglia nerves.

Radiant Realm (RR. 5.132) The Materializing Fire

(Bring from Spirit Realm -> materializing)

Process of working the Combustion of the flame.

Pushing backwards and forwards, pushing and swaying energies combining to sacred flame. N <-> S, E <-> W, pushing and waking the flame into Combustion, igniting the flame. Effect of using fire moving down nerves on nerve pathways -> the transmission of fire.

Radiant Realm (RR. 5.133) Shu-tefnut

Felt this point at Seat of nose.

Heaven
Earth

Could see a Light Realm, energy only above
Divine Liquid (not water, Spirit Substance) below

Experience in my body: body yielded to Bright of Higher Mind (The Bright). Body felt in liquid, yielded -> Bright of above, Earth -> Heaven.

Radiant Realm (RR. 5.134) Zodiac of Dendera

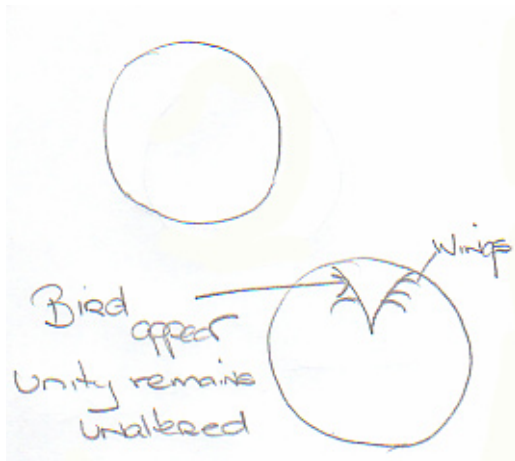

Vision: The pattern of Constellation in the sky Right and Above, a spear thrusting through and directing downward toward Right Side of the Heart and Right Shoulder. Right Side Penetration, source of attention being Penetrated toe to crown -> Seventh Stage of Life. The fullness of the Seventh Stage of Life.

Radiant Realm (RR. 5.135) The Divine Ternary

(Ternary means of three) Father – Holy Spirit – Son; 1 or Unity, three is not different from one. Surrendered Mind – dissolution Father, Spirit Current Breath – Heart, Son – Body, yielded.

Radiant Realm (RR. 5.136) 1, $1/\phi$, $1/\phi^2$

Actualising of Spirit Current into Substance.

Vision: Infinite Current, White Radiant Light appears, coming as Spirit Current. Saw section being sliced (Unity remains unaltered), through what appeared as Bird or Holy Spirit. Proportion created by original Schism created by ϕ .

Bird – creating proportion presently being created, creating all manifestation.

Within section of wings saw the actualizing of manifesting Current, appeared actual manifestation.

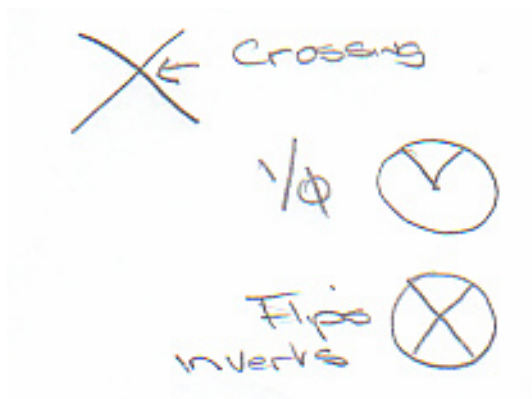

$1/\phi^2$:

Rod splinters into individual species. Each rod has its own outcome of manifestation, genesis and finality. ($1/\phi^2$ is 3)

Radiant Realm (RR. 5.137) The Function of Crossing

Is multiplying a fraction by its inverse. Crossing is a particular point (point of closing scissors, point moves along line – faster than the Speed of Light)

Current hits Resistance or Density as one Realm hits another Realm. Heaven and Earth -> process or flipping (mathematically orchestrated) -> hits the Density and flips -> invets – since one is the Reflection of the other, as above so below. Inverted Consciousness Required to live mortal form.

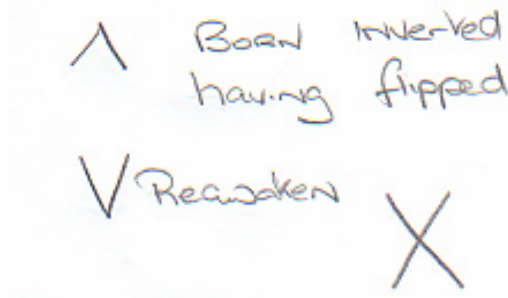

Crossing like that -> X (multiplication sign)

Remembering $1/\phi$

flips this to inverted X

Effect of using: Bring us to Conscious awakening.

Born inverted

therefore awaken to

therefore X the whole Being known and allowed. Cosmic Man – more than Human potential of Human.

Radiant Realm (RR. 5.138) The Formal Unity

The formal Unity is One, is the Unique One.

Effect: Awakening of Divine Consciousness, all other Unities come out of it.

Radiant Realm (RR. 5.139) Punctal Unity

Is in the process of splitting off from Unity creating fractions of formal Unity = Punctal Unity. Can be Unities in themselves by Not the formal Unity only Punctal Unity – not the Unique Unity – Father + Holy Spirit + $1/3 = 1$.

Effect: Directing attention to different areas can focus on different areas of manifesting current.

White Spacer

Heaven Inverted

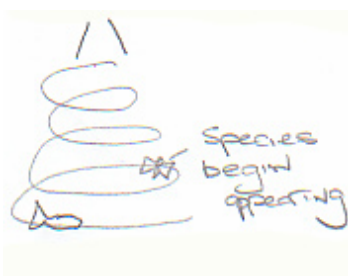

(Both make the whole)

Black Spacer

Earth

Radiant Realm (RR. 5.141) The Initial Temporal Definition

Sunlight on the Water. Vision: Saw the Light – Divine Creative Light shining through down forms and particles began to be seen swimming in a circular motion like sunlight on water. Vital movement is duration.

Layers appear
Species begin appearing

Enlightening current of creation grounding through our bodies

Radiant Realm (RR. 5.142) The Transcendental Square $1/\phi^2$ (Son)

Transcendental Current Reveals its combining within this world and Revealing manifestation within the Son.

Radiant Realm (RR. 5.143) Intelligence of the Heart

Transcendental Sun

Intelligence of Volume

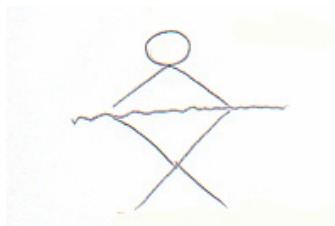

Holy Spirit

Body Initiates

Initiation on the Right Side of the Heart allowing the Current to initiate the Volume enters as associates with mortal Life. That Intelligence is the Volume of Life Itself. Associates with mortal form. (Heart Master Da said it initiates around 2 years, subtle to gross)

Radiant Realm (RR. 5.144) The Action of ϕ

Light fractiates into Own Radiance. Light is fraction of Unity of the One. All is our own Radiance. First Schism of One becoming 2. All the fractions create things.

Creation

Creation is the Light

Transcendental Water

Light Fractiated into all the other things of Creation.

Radiant Realm (RR. 5.145) The Human Genesis

Vision: Tree of Life

Human forms appear as part of a tree trunk. Each one – arms extend around the tree, trunk as extension of arms.

Totemic Pole – History of Individual Human Kind. Genesis an infinite tree. Rings of Bark -> ancestors etc. Within this holds the human possibility - cosmic man. Greater evolutionary moment. Human evolutionary possibility. Never been instigated – initiates possibility.

Radiant Realm (RR. 5.146) The Seed of the Species

Metal Kingdom mineral -> plant -> animals -> human -> cosmic.

Vision: Hand of God Divine hold 2 seedpods – moving the seeds full with the seeds falling Beings, the splitting of time from Space gives rise to species.

Radiant Realm (RR. 5.147) The Action of $\phi + 1$ (Concentration)

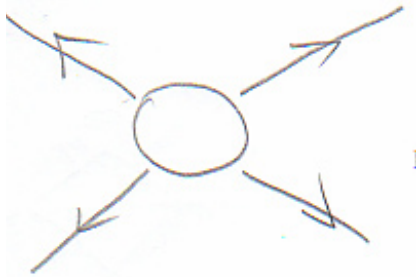

Geometrical Representation

All energy comes into first
Point – Seat of Consciousness

(ϕ is a mystical number, represents $\sqrt{5}$ - Being the mystical Concentration -> Gram

Radiant Realm (RR. 5.148) The Action of $\phi - 1$ (Dispersal)

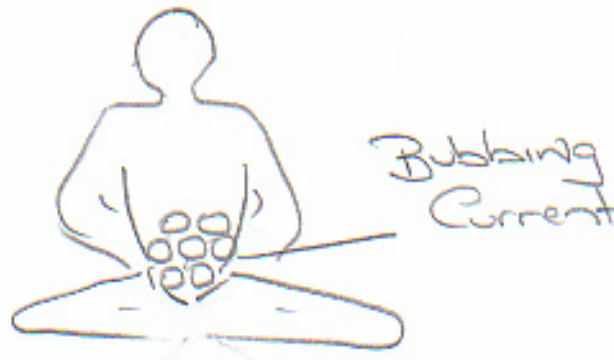

Dispersion from Heart Centre in four directions

Radiant Realm (RR. 5.149) Genesis of $\phi + 1$

Active concentration of Current of Creative Force felt in the Base centre (creative centre: Hara). The force is seen and felt as a genesis of bubbling up balls, all balls appear to hold different creative possibilities or species.

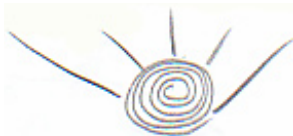

Bubbling Current

(Creative Energy)

Radiant Realm (RR. 5.151) Counting: First Innate Form of Consciousness

Vision: Radiance of Consciousness from the Action of $\phi + 1$. Begins to now divide into Shafts of Light:

Shafts of Conscious Light -> Fractionates into particular forms.
Fractions of the Unity -> become Volumes.

Effect: Releases the tangles and knots held within the brain mind – assists in the development of Penetrating Consciousness. Lifts the weight of Concrete mind.

Radiant Realm (RR. 5.152) The Original Scission (Polarisation of Energy)

Absolute Unity – there exists no polarization in one becoming two. Complementation -> (The Unique Unity is the Source of the original schism)

God > The Cross is the burden of mankind serving space over time. Fall from Grace: Separating space and time: the body is space, is volume, the mind is in time.

Vision: Saw the Kingdom of God. A door opens upon this plane, Light rushes through and down. Out of the Light – shafts of Light appear, the (schism of Unity). Out of this a cross of Spirit Substance (meteorite substance). Full fire crashes to the Earth plane, in the impact – the Spark of Creation, initiatory Light – initiates Light, fire animating substance. Fire from the East – initiatory.

Effect: Reinitiates fire, Transformative fire initiates the gestation.

Present condition: degradation. Space and time separation, the Mind is in Time, separating from Reality Space – Mind -> drifting into Rational Mind.

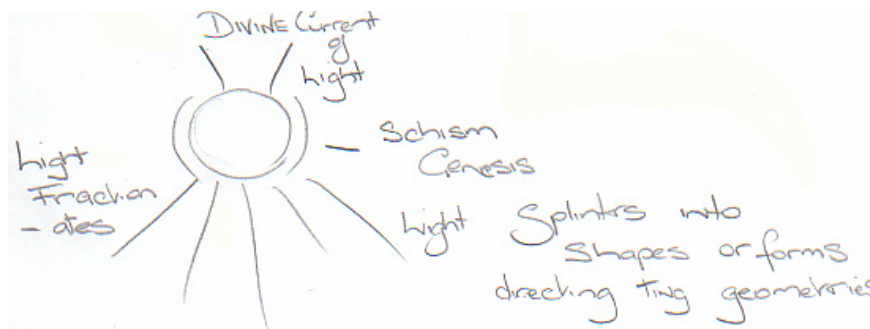

Radiant Realm (RR. 5.153) The Numerating Action of ϕ

Vision: Genesis of $\phi + 1 \rightarrow$ penetrating spheres – seeing fractioning into forms or species – different numbers of specification, specificities (go forth and multiply).

1 becoming 2 = procreation

Radiant Realm (RR. 5.154) Numbers as Function Symbols

Vision:

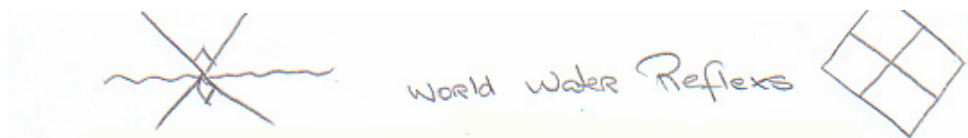

My Beloved sees my Beloved
Tiny Geometries beyond reason

All dissected by schisms of fractionated Light

Radiant Realm (RR. 5.155) The Pharaonic Throne (The Throne of the World)

Vision: Fractaliser of Divine Radiance appears

Throne appears as a Doorway of Light entering the world, the apex as the Crown - a point of Light meets a defining touch.

This is the throne of the world and the royal pharaonic throne, symbolized by a square divided into four, that is, 1 and 3 making 4, with one fourth being added to the four others to make the gnomon of 4 to 5 (fig. 2).

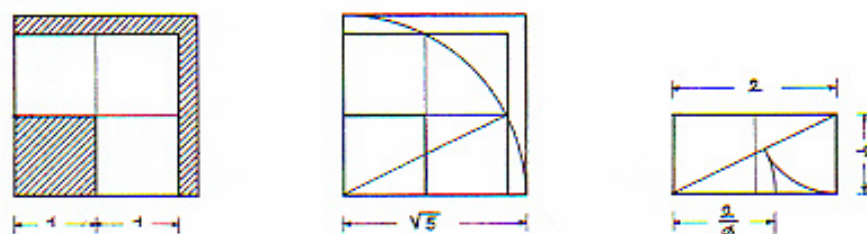

Fig. 2

The full side of this throne will be the square root of five. The square root of five less one unit equals $2/\phi$, if the side equals 2, or geometrically $\sqrt{5} - 1$; but if the side equals 1, we have the proportion $1/\phi$ or $(\sqrt{5} - 1)/2$ (fig. 3).

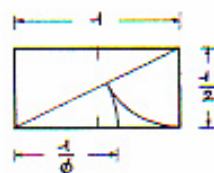

Fig. 3

All the positive numbers, all the possible functions, are thus summarized in the single symbol of the throne: the mystical function ϕ ; the relationship 3 : 4 : 5, the basis of trigonometry; the temporal value that presides over all gestation, the numbers One to Five, and which, by their triangular nature preside over time: the nine cosmic temporal principles and their twelve temporal zones in the heavens.

The tetraktys includes nine powers around the throne of unity; this is Semitic thinking. The pentaktys includes twelve zones (the Twelve Apostles around the unitary Trinity); this is Christian thinking.¹⁴

We are able to situate a temporal moment in space, but space as volume is only comprehensible to us through the plane, the surface that measures volume. The cerebral intelligence is *planar* and not spatial. *The intelligence of volume is what the Ancients called the "intelligence of the heart."* All imagination, all linear representation, all description, is planar. The parabolic line, for example, is the contour of a section of volume, as is the path traced by the movement of a comet. In this way we can consider all curves as sectional contours of a volume.

To demonstrate the esoteric sense we have only the symbol that, through architecture, speaks to us in volume.

Analysis shows us three directions within a volume, but in reality three planes will never, even in their displacement, reconstitute a volume. Displacement in the direction of a plane is only an addition of planes, which is pure supposition, because planes have no depth. The geometric

¹⁴ From the tetraktys to the pentaktys we are going from Semitic to Christian consciousness, but wisdom brings them together in a single whole.

Radiant Realm (RR. 5.156) The Knowledge of the Intelligence of the Heart

Within the point on the Right Side of the Heart. Entry to the Temple is through perfect dissolutionment, enter the Kingdom of Heaven. The Doorway Entrance allows down – back to birth and God Birth (down and up). Knowledge is held on the Right Side of the Heart Doorway.

Effect: Awakens us to the True form, the Truly Human Possibility -> Cosmic Man. Renewal. Allows Real Connection.

Radiant Realm (RR. 5.157) The Verb Acting In God

Vision: Omnipresent Form appeared – shape but no definition – held within it was the current of pulse that worked the world, was the action as though the blood and muscles created the Current of Life.

Effect: Felt as a current entering the body particularly through the blood pulsing as action. Current movement action.

Radiant Realm (RR. 5.158) The Quality of Space

(which makes form)

The Numbers become form as the Divine Current (like sunlight on plants) activates. Ignites growth into form. Sunlight shining on chromosomes numbers -> form.

Effect: Initiates or ignites.

Radiant Realm (RR. 5.159) The Form as Vital Specification

Like the manifestation following the shattering of Light down in the nitty gritty of manifesting specification

Radiant Realm (RR. 5.161) The Activity of ϕ is Universal and Uniform

The Sacrifice of God is constantly happening through this gesture, all of this is.

Vision: Burning Cross constantly falling again and again through the number 4, all is manifest. Action of ϕ through the universal and uniform Father – Son (3). Number 4 allows this manifestation of form. 4 = power of 2. 1st surface (section through a volume). Volume is 2³

Effect of using this: Constantly bringing the Current of Humility. Constantly bringing the action of Creation – evolution all at Once.

Radiant Realm (RR. 5.162) The Things Contained in the Human Genesis

Image of Divine = Likeness of God

Return to the Unity also in that

Vision: 1st the Coil, 2nd the Seahorse (getting to cry), 3rd Chakras appear as flowers.

Chakras move to Cosmic man, Return to Unity.

1 2 4 6 8 -> 1 (Thotian numbers) return to Unity

8 – Basic structure of the Living Form; Octohedron Volume

Mysticism of Space -> ϕ – mystic spiritus -> termination into Volume. Contracting power is a fire.

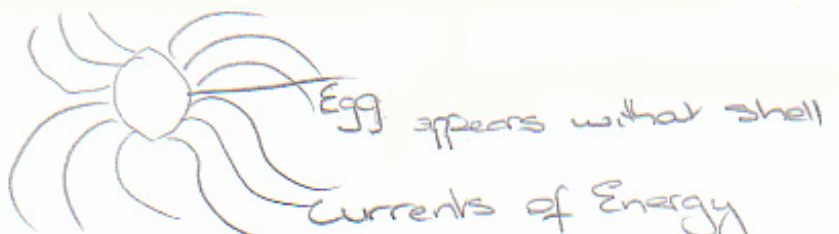

Sphere -> Form

Impulse ϕ -> Octohedral

Space contracts -> mineral nucleus by 2/3 (pressure)

Effect of using: Vessel of understanding, Light Current shining down from above.

Radiant Realm (RR. 5.163) The Surface Limits the Definition of the Size of Form

Surface = Section through a Volume

Definition of Line = edge of Volume
Point: intersection of Edges or a corner.

Surface is the holding force. Surface is a something, is a literal force.

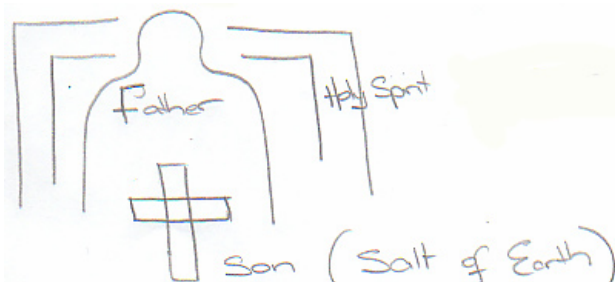

Effect: gives distinction without, without it everything would blob out, morphis.

Radiant Realm (RR. 5.164) 1:1/φ:φ²

Vision:

1 Father,	2 Holy Spirit,	3 Son – Ternary
1 -	1/φ -	φ²

Unity

Effect of using this:
Felt Unity and mortal form ->
Evolutionary possibility of man
Not realized except for a few.

Radiant Realm (RR. 5.165) The Number Line is Movement

The cause of movement, sound vibration, created the flow, created the movement. Everything is based on harmonies. Out of vibration of strings you get tones, you get octaves.

Effect of using: Forces movement forward, overcoming inertia. Initiates flow. Rajasic rather than tamasic.

Radiant Realm (RR. 5.166) Vital Movement (Duration)

Vision: Sound and Light Current emanating from Eternal Source. Ongoing – genesis – ever creating, ever present now-ness, is-ness, continuous creation.

Effect: Bring to Present Moment only the Present Moment.

“There is only the Present Moment – how can people be elsewhere?”

Radiant Realm (RR. 5.167) Unity is Absolute Duration

A felt “all at oneness” – no beginnings, no endings. Felt and seen as an explosion of Current, the absolute effect of crushing the separative.

The Esoteric Nature of the 6th Threshold Pack precludes it from being given. Exoteric expression, hence the number names.

One – can’t survive the intensity, outshines

Radiant Realm (RR. 5.168) Theory of Number (The Only True Philosophy)

Creation of Duality – through number 1 becoming 2. Reflection – harmonies.

(Fractions of unity 1 becoming 2 are all octaves)

Effect: Lower coil or procreation. Energy from above – pressure on lower chakras. 1 becoming 2.

Radiant Realm (RR. 5.169) The Product of Extremes Equals the Product of the Means

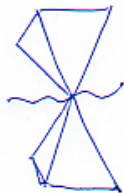

Harmonic mean and arithmetic mean extremes are the beginning and ending of the number line.

$$(\text{Harmonic mean}) = \frac{\frac{1^{\text{st}} \text{ No.}}{\text{Lowest Number}} + \frac{\text{Last No.}}{\text{Highest Number}}}{2}$$

$$(\text{Arithmetic (average)}) = \frac{\text{sum of all numbers}}{(\text{number of numbers in sequence})}$$

Octohedron = Seed of Mineral Life

Vision:

Pyramid appeared in Divine Realm
Reflects into mortal Life

Effect: Forcing Divine Vision to incarnation without aberration, without Deviation - no motivations.

Radiant Realm (RR. 5.171) The Solid Cosmic Heart

Is the Octohedron

Seed of Mineral Life

Effect: makes feeling of current of Love a possibility. Vibratory current – horizontally.
Heart current – pulse of Love held in this shape. Heart current, Love, Heart Opening Pulse.

Radiant Realm (RR. 5.172) The Corporeal Octrahedral Nucleus (The Mineral Origin)

The Seeding of the Heart Current of Love – Pusling seed – initiating, igniting.

Octrahedral nucleus forces igniting.

Effect: Release of a new secretion, an anthropocosmic possibility of a new form.

Radiant Realm (RR. 5.173) Seminal Potentiality

Seeding and fruiting of anthropocosmic potentiality

Effect: Impulse to new form
Impulse to new birth
Impulse to new awakening
Physical form

Radiant Realm (RR. 5.174) The Great Book of Nature

Radiant Realm (RR. 5.175) The Function of Intelligence Through the Crossing

Head – new anthropocosmic Brain mind, whole bodily
